

What is CAT?

CAT is an art education program that exposes children to the elements of art. CAT provides children an understanding of art through auditory, visual and kinesthetic learning styles. Children learn to be inspired by their surroundings. Immersion in our art program develops problem solving and critical thinking skills.

Our program, through introductions to master artists, different genres, a variety of art periods, high quality materials and critiquing sessions give children confidence in their art and self-expression. Our planned curriculum not only advances their understanding of art but increases proficiency in math, science and communication skills. Children learn to respect art and ideas different from their own and to set and attain goals

The CAT Program was developed and is directed by teachers with extensive experience in the fields of art education and early childhood and elementary education.

Art Classes

TABLE TIME: Art exploration for preschoolers ages 1-up. Coffee and snacks are served! This is a drop-in class. No reservation is required.

Level 1: recommended for ages 4-6 who have not been exposed to much art activity. They will explore a variety of mediums, tools and techniques.

Level 2: recommended for children ages 7-9 who have a bit of art experience and want to have fun exploring and creating with quality art materials and interesting techniques.

Level 3: recommended for children ages 10-12 who have expressed a love for art and want a deeper more intense study of the elements of art and art history.

Homeschool Art and Art History: Please email us for a detailed Homeschool Brochure.

Pottery: for children who want to learn the ins and outs of working with ceramics.

Please email us at info@creatingartistsfortomorrow.com to receive a registration form.
